

# Risks To Global Security

# SISMUN

It is a pleasure and an honour to invite you to the 8th annual SISMUN 2020 Model United Nations Conference. The conference is a chance for students across Scandinavia and beyond to engage in MUN, involving themselves in current world affairs and becoming global citizens. Our annual conference will take place on January 30th-1st of February, with a detailed schedule coming soon. This year, our delegates will be looking at issues surrounding our overarching theme of “Risks to Global Security.” From the ongoing Hong Kong riots to Europe’s ongoing refugee crisis, delegates will have the ability to engage in discussions over a variety of globally significant topics.

In order for SISMUN to be as successful as it can be, we believe in engaging in joint efforts with other schools. With that, students from all visiting schools will also have a chance to take leadership positions and apply to become chairs. Additionally, starting from SISMUN 18, we have introduced committees which are reserved for more experienced delegates and chairs. If delegates wish to be apart of these exclusive committees, an additional application will be required.
